# Amber Jubilee™ Ninebark

*Physocarpus opulifolius* 'Jefam'

# Amber Jubilee Ninebark

## *Physocarpus opulifolius* 'Jefam'

*In a marketplace with many new ninebark cultivars, Amber Jubilee stands out as truly unique. This new shrub introduction offers a kaleidoscope of colours throughout the spring, summer and fall.*

<b>Botanical Name:</b>	<i>Physocarpus opulifolius</i> 'Jefam'
<b>Family:</b>	Rosaceae
<b>Common Name:</b>	Amber Jubilee® Ninebark
<b>Origin:</b>	A seedling of the cross 'Diabolo' x 'Darts Gold'.
<b>Hardiness:</b>	Zone 2 (Canadian and USDA)
<b>Growth Rate:</b>	A medium shrub reaching a mature height of 5-6' (2 m) and a width of 4' (1.5 m).
<b>Description:</b>	Amber Jubilee offers a unique blend of foliage colours including new growth that takes on shades of yellow and orange in summer before turning purple in the fall. Foliage on mature sections of the plant is lime-green. Annual pruning of the stem tips will cause this plant to look its best.
<b>Culture:</b>	Performs best in moderate to full sunshine. It is suited to a wide range of soil types and growing conditions.
<b>Pest and Disease:</b>	No specific problems.
<b>Landscape Value:</b>	Amber Jubilee is distinct from purple-foliaged ninebarks such as Center Glow, Coppertina and Summer Wine. Its foliage is an improvement over long-time cultivar Dart's Gold. Amber Jubilee will be effective as a medium shrub in the landscape, whether massed or planted in small groupings.
<b>Propagation:</b>	Cuttings from established plants. Propagation by license only.
<b>Sales Potential:</b>	Amber Jubilee is an exciting new ninebark selection, with improvements over older cultivars. Named in honour of Queen Elizabeth's visit to Manitoba in July 2010, it is sure to be well publicized in the years ahead.
<b>Production:</b>	Royalty of \$0.75 per plant, registered with COPF.
